Description

A smart and very well made pair of antique mahogany bedside cabinets. They were made in England, they date from around the 1890-1910 period. They are of superb quality and are a good size, with a useful and practical design. The backs are polished, they could be used as free standing items and would work well in a living room setting as occasional lamp tables. We have had them re-polished, the condition is excellent for their age. They have some normal surface wear and patina here and there, commensurate for age. One cabinet has some small holes in the upper back section, probably made at some point for feeding cables through. Width – 14 inches , 36 cm Depth – 13 inches , 33 cm Height – 29 inches , 73 cm
