Price

GBP 2,200

| USD \$2,977 | EUR 2,574

Item Reference: SA1107858

Date of manufacture: Edwardian

Description

DESCRIPTION: This is a truly exquisite mahogany longcase musical clock which is in superb condition and is exceptional quality. For a tube chimer clock this is of small proportions which is a lovely feature. The clock has a choice of two tunes namely Westminster or Whittington (with the selector located at 'III'), or can be selected for 'SILENT' or 'STRIKE & CHIME'. The movement is outstanding quality. In addition to being musical it is maintaining power. The clock is in perfect working order having just been professionally cleaned and serviced and is ideal for anyone looking for a high quality clock to place straight into their home. If we start with the hood, this has swan necks with arched moulded cornice and is finished with turned pateras. Pretty Corinthian columns which terminate in brass capitals flank the hood door and there are pretty shaped back splats to the rear. To the sides of the hood are wonderful fretted panels lines in fabric which allow the sound of the chimes to pass nicely from the case. If we then move down to the trunk it has a wonderful full length door which is shaped to the top and has nicely shaped edges. The door is also complete with it'...

Internal Ref: tube chimer 04
