Description

Technical Description A fine Victorian cranberry overshoot glass water jug dating to c1880. It has a poring section to the front and a clear ribbed amber claw handle. Date & Origin England, USA or Europe, c1880. Condition Excellent, clean and clear, no chips cracks or restoration. Dimensions Height: 18cm Diameter: 13cm Comments Overshot glass was made during the Victorian era in many different locations, including England, Europe and the USA where Boston & Sandwich made some outstanding decorative and functional pieces. It is created by rolling the hot glass in tiny pieces of broken glass and then reheated to remove the sharp edges producing a very rustic look and feel. One of a number of superb examples from the amazing glass collection of John and Poppy Stallebrass.
