Description

This exquisite mantel clock features a double fusee movement with a balance escapement that strikes hourly on a gong, all encased in a handsome solid oak case. Crafted by Thwaites & Reed of London, the clock's 7-inch silver dial showcases black Roman numerals and includes a Chime & Silent option, along with Rise & Fall adjustments for precise speed control. The dial is safeguarded by a brass bezel-edged glazed door. Renowned for its continuous production since its inception, Thwaites & Reed is reputed to be the world's oldest clock manufacturing company, with records of Thwaites clocks dating as far back as 1610. The rich hue and grain of the oak enhance its allure, making this clock, steeped in the history of its maker, a coveted piece.
