Description

Gents 1950s jumbo Dogma Prima wrist watch. The watch has a signed 15-jewel hand-winding movement, believed to be a Dogma modified ETA 853, which is working nicely. The watch is a good wearable size at 38mm diameter excluding the winding crown and the lugs. The case is stainless steel with a plated alloy centre, a combination often seen from the second half of the 1940s. The lens is in lovely condition (some white daylight reflections showing in the photos). The signed dial is in its original finish with original hands, a subsidiary seconds dial with concentric circles and an inner minute track. There is a little marking to the dial. A later leather strap has been fitted. The watch comes in a new presentation box.
