Description

This lovely Jaeger-Le Coultre Atmos clock is a beautiful classic time piece whether you are a collector or simply want a beautiful addition to your home. This lovely gilt brass Jaeger-le-Coultre Atmos clock, bears the serial number 266628. It has a lovely white chapter ring applied with relief cast Arabic numerals and arrow batons surrounded by a lovely glazed gilt brass case. Below the '6' is marked 'SWISS MADE'. To the Center is marked 'ATMOS JAEGER-LE COULTRE SWISS MADE'. The clock has a self-winding mechanism powered by changes in barometric pressure. From the serial number which is 266,628 and we understand that this clock dates to the 1960's when the serial numbers ran from 127,000 to 299,999 and the Calibre was 526-5 as this clock is. The underside of the clock is also marked 'CAL 526-5 LE COULTRE & CIE METAL CALIBER 526-5 SWISS'. Also the rear of the clock is stamped LE COULTRE & CIE SWISS. The case has levelling feet built into the base of the case. It also has a lever to lock the pendulum down before moving to clock. The clock runs beautifully. **CONDITION:** The clock runs beautifully. The case in lovely condition as can be seen from the photographs th...
