Description

Here we have a rather interesting clock made by the Gold & Silversmiths of Regent Street, London with Date letter 'i' for 1924, exactly 100 years old! The clock is unusual in that the size is 'giant', or certainly extra large. Most similar clocks in silver were normally a quarter of the size and non-striking. This fine example has the classic 'C' scroll handle and rectangular case with an 'off white' enamel dial showing Arabic numerals and a fine pair of original blued steel hands. The Goldsmiths & Silversmiths of Regent Street sold many clocks in this style and were all fantastic quality. A truly rare timepiece ! Sold with outer leather case (distressed) and silver plated key. Sold fully restored with a 24 month guarantee.

Internal Ref: Solid Silver Giant repeater
