Description

Rare 1930s Universal Geneve wrist watch. UK POSTAGE ONLY FOR THIS ITEM This is a very rare model, the likes of which we have never seen (or can track down). The watch has a 15-jewel calibre 230 hand-winding movement which is working nicely. The movement is signed with the Universal Geneve name. The watch measures 17mm wide excluding the winding crown and 38mm high excluding the articulated lugs. Originally the watch would have been worn by a man but by today's standards, it would suit a man with a slimmer wrist. The case is stainless steel and it is in lovely condition. The inside of the case back is signed Universal Geneve. The lens is in good condition. The signed dial is in its original finish, showing some fairly light signs of age, with original blued steel hands. The watch has a vintage leather strap. The watch comes in a new presentation box.
