Description

A beautiful quality piece of fossiliferous dark grey marble tops this circular Empire period guéridon table, which dates to circa 1840 and originates from France. - Small white shell-shape inclusions in the marble. - Marble top has a moulded edge. - Lion paw feet to the tripod base, with brass castors beneath. - Attractively shaped concave panel column support. This is a relatively small and low circular table, at slightly less than a metre in diameter, making it a lovely lamp table or a display surface for decorative objects. In good condition showing wear consistent with age and use. The marble top has a square shaped white outline mark, which is not obtrusive and blends in well with the colouring, but there are no chips or nibbles. Date: Circa 1840 Material: Walnut & Marble Origin: France Height – 77 cm Width – 90 cm Depth – 90 cm
