Description

This is a fabulous pair of solid silver peppers, very realistically modelled as pheasants. They are German, with Hanau marks, and I would think date from the 1920s. They stand securely. The pepper holes are in the heads which pull off to fill the body cavity. The silver work is beautiful. The last picture shows them in place on a dining table, complete with a pair of Georgian salts, a Victorian Claret Jug and one of a pair of Georgian bottle coasters, all currently in stock (but not included in this sale). Dimensions: Length: 14cm Width: 2.5cm Height: 6cm Total Silver Weight: 100g. Complimentary gift wrapping is available on request. Post and packaging are free within the UK. Overseas buyers please e-mail for postage costs and please note: Import duties, taxes, and charges are not included in the item price or shipping cost. These charges are the buyer's responsibility. Please check with your country's customs office to determine what these additional costs will be prior to buying.
