Description

A super quality cased set of English antique solid sterling silver servers. They are hallmarked for London 1923/37 (clearly a set being identical just taken from different batches at the factory before being assembled). They have been beautifully made and the terminals have been engraved with the initial S. They are in superb condition being free from dings splits and repairs, the case is equally superb. They measure approx. 8.25 inches (21cm) long and have a combined weight of 150 grams excluding the case. A very nice quality set.
