Indian silver 19th century milk jug

Price

Sold**Item Reference: SA1113850****Date of manufacture: 19th Century**

Description

Indian silver 19th century milk jug. Super decoration all over with a wonderful snake handle, there are initials etched to the base which may be the makers mark. The workmanship is exquisite. Sadly no marks but tests as silver. I believe these were made in various regions of India so difficult to know where this one originates from. H 9 cms W 5 cms (diameter)
