Description

This remarkable piece showcases a large, flawless pale lemon colored citrine that sparkles with an extraordinary brilliance. The expertly faceted stone catches the light beautifully, radiating warm golden hues that evoke a sense of timeless elegance. This was a hard piece to photograph and capture, so I do hope the videos show just how amazing this pendant is. Originally an antique Citrine gemstone, this stunning citrine has been thoughtfully repurposed and reset into a bold 9ct gold frame structure by my talented jeweler. The sturdy gold structure highlights the stone's natural beauty. A truly one-of-a-kind treasure with history and modern craftsmanship seamlessly intertwined. This piece comes presented in a Milly's Marvels gift box. DIMENSIONS CITRINE - 2.4cm x 2.4cm TOTAL LENGTH OF FOB - 4cm WEIGHT - 24.8grams HALLMARKS - The gold frame is unmarked.
