Sold

Item Reference: SA1114591

Date of manufacture: 1950

Dimensions

Height = 20 cm (7.9")

Width = 3.6 cm (1.4")

Depth = 1 cm (0.4")

Description

This is probably the rarest of all Omega Seamasters ever made the Jumbo sized Omega Seamaster Bumper Automatic model reference 2657 in solid 18ct rose gold. The diameter is just over 36mm excluding the crown which makes this a jumbo and is the largest of the bumper vintage Omega Seamasters. The movement is Omega's highly reliable calibre 342 fully automatic Bumper movement. An Omega "bumper" is a vintage Omega that has a "bumper" automatic movement rather than a full rotation rotor automatic. The oscillating weight makes a partial rotation before "bumping" into a cushioning spring. This is the earliest type of automatic movement. The two tone dial with sub seconds is totally original and untouched it has had no restoration whatsoever, it's in fabulous condition with just a slight even patina to give away its 70 years. The case is in fabulous condition all we have done is a light hand polish with some jewellers rouge to bring out the colour of the solid 18ct rose gold. The case back has none of the case tool damage normally seen on watches from this period, it's just perfect. Remarkably this watch comes with its original Omega paperwork from 1953 and additional valuation...
