Item Reference: SA1116055**Date of manufacture: 1900**

Description

A beautiful antique solid silver Chinese export silver jug. It is marked with a Chinese character and tests as high grade silver. The maker is Tuck Chang. I would date it to c1890-1910. It has been beautifully hand made being lightly plannished. It is in superb condition being free from dings splits holes and repairs, just the odd light mark. It measures approx. 4.75 inches (12.3cm) across handle to lip and 3.25 inches (8.5cms) tall to the top of the handle and weighs 154 grams. A superbly designed example.

Internal Ref: 34478
