Dimensions

Height = 129 cm (50.8")

Description

A Large Hand Forged Set of 3 Wrought Iron Fire Tools 128cm Country House Estate Made Antique. An extremely rare set of oversized, hand forged fire tools, almost certainly estate made for a large fireplace, most probably country house fire tools that measure apx 128cm tall and operated using 2 hands, an impressive set. The natural wrought iron, heavy gauge fire tools each have a central twist column and handle to the top, it requires 2 hands to operate reliably, a striking set with a poker, a log fork and spade end which is likely for clearing out the burned out fire. We believe these to be late 19th century and almost certainly a custom made, estate made set. Please request more photos and any questions invited. Free collection from Lewes, East Sussex. Dispatched U.K. and worldwide within 2-3 working days. These are heavy items which combined apx 15-20kg.
