Description

Antique Waltham Bond St pocket watch. The watch has a Bond Street grade stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 6,833,684 which dates it back to the late 1890s. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem. The case is gold filled and it is in lovely condition, with the engine turned detail on the back of the watch still being nice and crisp. The watch glass has some light marking but is very acceptable. The signed dial is in lovely condition. The watch comes in a new presentation box.
