Depth = 27 cm (10.6")

Description

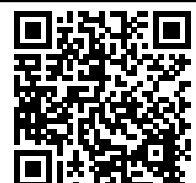

A Fine Quality Walnut Lenzkirch Precision Regulator Longcase Clock, Circa 1880. The Lenzkirch factories made the very best of the German factory-produced clocks. This beautifully proportioned clock, being a precision regulator, is an excellent example of the finest clocks and mechanisms made by this prestigious maker. The small size figured walnut case with a moulded architectural pediment top surmounted by a turned wooden finial with carved floral decoration beneath. The case is in fine original condition with excellent colour and patination. The case is glazed to the front and sides, with the original glass, flanked by beautifully figured walnut, with shaped mouldings, scrolled decoration to the top and bottom and carved rosettes to the upper section.. The long door is latched with matching cast brass hooks, one top and one bottom, with the original lock, key and cast brass escutcheon to the case side. The glass to both front doors and the sides of the case is wonderfully old and wavy. The step moulded base with a fully opening drawer, finely decorated to the front panel with well executed floral carving, surmounted on four turned feet. The interior of the ca...
