Description

1935 Longines pocket watch and chain. The watch has a calibre 37.9 15-jewel stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 5,358,058 which dates it back to 1935. The movement is protected by an inner hinged cover. The watch measures 46mm diameter excluding the winding crown and the loop. The case is nickel and it is in lovely condition with just general light surface marks, nothing serious at all. The inside of the outer covers has the EFCO Longines mark (for the founder of Longines, Ernest Francillon). The glass lens is in good condition. The signed dial is in beautiful condition with original Breguet style hands and Breguet style numbers. The watch comes with a single chain, 27cm long, and a fob with a previous owner's initials to the front. The watch and chain come in a new presentation box.
