Antique Record pocket watch and albert chain

Price

Sold**Item Reference: SA1118888****Date of manufacture: 1920**

Description

Antique Record pocket watch and chain. The watch has a good quality 17-jewel stem-winding movement which is working nicely. The fully signed movement has screw-set jewels, swan neck micro-regulator and Breguet hairspring. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and overall the condition is good with just the odd minor mark, nothing serious at all. The acrylic lens is in lovely condition. The dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a later single chain, 30cm long including the T-bar and the clasp. It is a period chain but later in date than the watch, and slightly yellower in colour, but this is how they came to us. The watch and chain come in a new presentation box.
