Description

A beautiful solid silver Indian cigarette case. It is unmarked but tests as high grade silver. I would date it to c1900. It has been beautifully hand made being embossed and chased with scrolls and in superb condition being free from dings splits holes and repairs. It measures approx. 3 inches (8cms) by almost 2.25 inches (5.6cms) by 0.75 inches (1.6cms) and weighs 91 grams. A superbly designed high quality example.
