Date of manufacture: 1900

Dimensions

Height = 23 cm (9.1")

Width = 37 cm (14.6")

Depth = 23 cm (9.1")

Description

Kelvin Bottomley mahogany-cased Barograph, having five bevelled glazed removable lid, and a drawer below to house the charts. The mechanical eight-day movement is housed in the drum, fitted with a seven-day chart that covers one full rotation of the drum. The ink trace, or barogram, on the recording paper, is a visual record of changes in pressure. The aneroid barometer mechanism has seven stacked vacuum capsules and utilises a gate suspension, a refinement developed to improve sensitivity. The barograph has a thermometer and its original glass ink bottle recessed into the case. Dimensions Height 9 Inches Width 14.5 Inches Depth 9 Inches
