Antique Waltham pocket watch, 1906

Price

Sold**Item Reference: SA1122203****Date of manufacture: 1900**

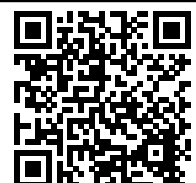

Description

Antique Waltham pocket watch, 1906. The watch has a 17-jewel grade 625 stem-winding movement which is working nicely. This is a good quality movement with screw-set jewels, Church 1892 patent regulator and Breguet hairspring. The movement is fully signed and it has the serial number 14,678,882 which dates it back to 1906. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold filled Moon model from the Dennison Watch Case Company. The case is in good condition, just the odd small mark but nothing serious at all. The glass lens is in good condition. The signed dial looks good to the naked eye... if viewed very closely, there are a couple of short very faint hairlines. Blue steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
