Description

This is a fabulous example of a vintage mens watch made by the premium Swiss make Omega. This is the Solid 18ct gold Seamaster Deville with fully automatic 24 jewel calibre 562 movement with quick set date. Model reference number 166.5020 Everything about this watch is original, the dial has not been restored or retouched in any way and is quite superb. It has the Omega logo on the crown and a genuine Omega buckle. This is one of the more desirable Seamaster Devilles with the heavier Dennison made solid 18ct gold case, the Dennison cases are about 50% heavier than the cases made in Switzerland. The Seamaster logo on the back of the case is bright and crisp. It is fully marked Omega on the dial, movement and case as you would expect. The watch has the rare diamond bright cut textured dial that shimmers as it catches the light. The case has been professionally cleaned and polished so it is absolutely pristine. The watch case measures 35mm in diameter not including the crown. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whispers class. Overall this watch is in outstanding mint condition...
