Description

1920s Fleurier full hunter pocket watch. The watch has a good quality stem-winding movement with 15 jewels , two adjustments, which is working nicely. It is signed Fleurier Watch Co. The movement is protected by an inner hinged cover. The Fleurier Watch Company was founded in 1858 by Jules-Samuel Jéquier and the company supplied movements to several watch manufacturers. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Illinois Watch Case Company. The case is in lovely condition. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in nice condition (some reflection showing in the photos). The double sunk white enamel dial has its original blued steel hands. There are a couple of very faint hairline cracks but they are so faint that they can only be seen through a jeweller's loupe. The watch comes in a new presentation box.
