Small antique Omega pocket watch, c1910s

Price

Sold

Item Reference: SA1123223

Date of manufacture: 1910

Description

Small antique Omega pocket watch, c1910s. The watch has a stem-winding movement, identified as by Omega, which is working nicely. The movement is protected by an inner hinged cover which has a little light scratching. The watch measures 35mm diameter excluding the winding stem and the loop. The case is gold filled and was made for Omega by the New York case maker Fahys. Joseph Fahys & Co was founded in 1857 by Joseph Fahys, a French emigrant. Fahys supplied Omega with cases at the beginning of the 20th Century. The inside of the case back has the Caduceus healing symbol, a mark used by Fahys. The case is in good condition. It has initials to the back of the watch, CEM which could be in any order. The glass lens is in good condition. The dial is in good condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
