Dimensions

Height = 126 cm (49.6")

Width = 35 cm (13.8")

Depth = 22 cm (8.7")

Description

A very interesting and attractive clock that can serve as a pedestal clock ("Grandaughter" clock) or alternatively be separated and used as a bracket/mantel clock and the pedestal used for another purpose. Constructed in a lovely golden oak case, it is beautifully polished with a nice rich, warm patina. The westminster -chime clock has an arched glazed door with bevelled glass and brass surround. The silvered dial has engraved black Arabic numerals, Black hands, and with subsidiary rise and fall, and STRIKE/SILENT dials. It strikes on the quarters and the hour, playing the Westminster chime. Importantly, it strikes on rods giving a very crisp and sweet tone. It has just been fully overhauled by our BHI registered horologist and carries our usual full parts and labour guarantee. A very neat and tidy little clock. Complete with all keys, keeping perfect time, and ready to go straight to work. All cards accepted.
