Description

A nicely made mid 19thc fruitwood dairy bowl of a useful size, ideal as a fruit bowl....it is made of turned applewood or pearwood, as it has the light colour and the small tight flecking you associate with medullary rays you find in fruitwood (see picture)also clearly seen are the characteristic concentric ring turn marks, you find with french made turned bowls....it has gained a lovely colour from careful use and is in very good condition. French. C1840-60.
