Description

Antique Waltham full hunter pocket watch, 1924. The watch has a seven jewel grade 610 stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 24,661,083 which dates it back to 1924. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the Dennison Watch Case Company, an English case maker and main supplier to Waltham UK. Overall the case is in good condition, just some light surface marks but nothing too detrimental at all. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in good condition, just a small chip to the bevelled edge (there is some reflection showing in the photo). The signed dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
