

SA1124330

1930s Doxa pocket watch

Price

Sold**Item Reference: SA1124330****Date of manufacture: 1930**

Description

1930s Doxa pocket watch. The watch has a 15 jewel stem winding movement, signed with the Doxa name, which is working nicely. The movement is protected by an inner hinged cover which is signed Doxa, and has details of medals won in Liege, Milan and Paris. The watch measures 55.5mm diameter excluding the winding stem and the loop. The case is stamped as being argentan which is a metal alloy, also known as "nickel silver" or "German silver," primarily composed of copper, nickel, and zinc. The case is in good condition, just a little gentle unevenness to the hinged back, nothing serious at all. The acrylic lens is in good condition. The signed dial is in good condition with original blued steel hands, a subsidiary seconds dial and outer minute marker track with red 24 hour numerals. The watch comes in a new presentation box.
