Antique Waltham pocket watch, 1912

Price

Sold**Item Reference: SA1125132****Date of manufacture: 1910**

Description

Antique Waltham pocket watch, 1912. The watch has a good quality grade 825 17-jewel stem-winding movement which is working nicely. The movement has a Breguet hairspring, Ohlson 1906 patent regulator, and safety pinion. It is fully signed and carries the serial number 18,283,359 which dates it back to 1912. The watch measures 58mm diameter excluding the winding stem and the loop. The case is Silveroid, an alloy often used in watch cases around this time and it came under various names such as Silverore and Silverine. It is in beautiful condition. The thick glass lens has small marks across it but is acceptable, and nice to retain the original lens. The signed dial is in good condition. The watch comes in a new presentation box.
