Date of manufacture: 1960

Dimensions

Height = 20 cm (7.9")

Width = 3.5 cm (1.4")

Depth = 1 cm (0.4")

Description

This is a remarkable almost mint quality unrestored example of the rare Longines 280 with starburst dial from 1965. The only work we have carried out is to service the movement and give the case a light polish with a soft cloth. The solid 9ct gold case is 35mm in diameter excluding the original crown. The case edges are sharp and crisp, the serrations on the original winding crown are razor sharp. The watch looks like it was kept hidden away in a drawer and almost never worn. The movement is a calibre 280 which is quite rare and very high quality, this was one of Longines highest grade movements of this period. It has been freshly serviced and is currently running at plus 10 seconds per day, not bad for a 60 year old watch. The serial number dates this watch to 1965. The solid 9ct gold case is fully hallmarked with a Birmingham Assay office date letter for 1965. The beautiful starburst dial is totally original and perfect it has had no restoration whatsoever. The hands are matching gold and all original. Its the most original and perfect unrestored example you will ever see. As you would expect the watch is fully marked on the dial, movement and case.
