Description

A lovely antique Copper Jelly Mould dating from the late 19th Century. Circular form with castle like turrets and hollow centre. Stamped '457'. It has been well used and has developed a lovely patina. We have only gently cleaned the copper to retain the patina but it could be polished further if desired. There are no major damages but there are some signs of age and use and some dents and dings around the rim. Overall it displays well. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £6
