Description

Antique silver Minerva pocket watch, 1919. The watch has a Swiss stem-winding movement which is working nicely. The movement has been identified as by the Swiss manufacturer Minerva. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for London (import mark), 1919 with a sponsor's mark for George Stockwell. From 1 June 1907, Stockwells acted as assay agents, facilitating the import into Britain of foreign gold and silver items which had to be assayed and hallmarked in a UK assay office before being released for retail. The case has a small "ding" to the bezel and small patches of unevenness, not too detrimental. The acrylic lens is in good condition. The dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and outer minute markers.
