Depth = 78.5 cm (30.9")

Description

Very unusual and super quality French Charles X (circa 1820) gueridon centre table in burr elm with a band of ebony string inlay and a wonderful central marquetry too. This fabulous table can be tilted as a display piece, or left down as a centre table or lamp table, supported by the turned pedestal on triform legs, classic of the Charles X period. Rich colour tone to the burr elm with its grain and the marquetry to the centre of the table top make this a very decorative piece of early 19th century French antique furniture. Good condition and stands sturdy. Some minor age related marks, but all under decades after decades of beeswax polish. Measuring: 27 1/2 inches or 70 cm high 31 inches or 78.5 cm diameter. 44 1/4 inches or 112.5 cm tall when tilted
