Description

A form closely related to Gillows drawings of 1825 and 1830 held in the Westminster Archive, and to its original campaign origins. Free from extraneous decorations and adornment this is a high quality example from one of our countries most famous makers. Notes of interest, all locks are by Bramagh, the desk interior is lined in cedar and the turned feet conceal counter-sunk brass castors. Solid and robust. Presented in original condition with some surface blemishes to the front and wear to the skiver writing surface, see images. The underside is inscribed in pencil, with maker or client?
