Description

One of the best early lignum vitae pounce pots I have bought...it is of a good size 4.3" inches (10.8cms) and has attractive figuring to the main body....the pounce pot does not unscrew as the top is wide enough to pour the used pounce back into the pot...it has gained a very good colour and it is in very good condition with just one historical crack, that was filled many years ago professionally...a real compliment to any collection. English. C1780-90.
