Description

Antique Waltham Traveler pocket watch, 1902. The watch has a seven jewel stem-winding movement, Traveler grade, which is working nicely. The movement is fully signed and it has the serial number 11,339,109 which dates it back to 1902. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and was made by the Dennison Watch Case Company, main supplier of cases to Waltham UK. The inside of the case back has the name of a previous owner. It is in very nice condition, as is the glass lens. The signed dial looks good to the naked eye. There is a faint hairline running vertically but you have to look closely to see it. The watch comes in a new presentation box.
