Depth = 99 cm (39.0")

Description

A magnificent antique Georgian period mahogany leather top partners desk. This was made in England, it dates from around the 1790-1810 period. It is of extremely high quality, it is a large and impressive piece. The front has lots of drawers and storage as you would expect, the back side has two lockable panelled cupboards and three further drawers. This comes with an original key, and most of the locks appear original too. The mahogany has a gorgeous colour tone and rich patina, the intricate brass handles are beautifully made and also appear original. The leather top is as we found it, it is also of superb quality with a stunning patina, we have just had it gently revived. This partners desk sits on plinth bases, with casters underneath & it comes apart into three sections for easy transportation. It's a good working desk and has a generous sized knee hole space. We just had this recently polished, it is in fantastic condition for its age, with some normal surface wear and patina remaining as expected for a desk that is over 200 years old. Width – 61 inches , 154 cm Depth – 39 inches , 99 cm Height – 30 inches , 76 cm Knee height – 23.5 inches , 59 cm Knee width – 28 ...
