Description

A fine example of a late 15thc latten "wrythen" knob single spoon....it is in very good condition for its age and has the typical "fig" shape to the bowl that you find on English spoons of this period...it has gained an excellent natural patination and would be a very fine addition to any collection of early spoons....provenance of the John Douglas collection,.....John was a former chairman of the Antique Metalware Society and was a very knowledgeable gentleman, with a good eye for quality pieces, who I had the great pleasure of knowing English.
