Description

Antique Omega pocket watch and football fob. The watch has a signed Omega movement which is working nicely. The movement carries the serial number 5,972,258 which dates it back to 1916. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel. The front and sides are in good condition, some unevenness to the hinged case back. The inside of the case back is signed with the Omega logo. The acrylic lens is in good condition. The dial looks good to the naked eye... if viewed through a jeweller's loupe, there are a couple of short very faint hairlines at the bottom. The watch comes with a single chain, 28cm long including the T-bar and the clasp. Also included is a football fob, free of any personal inscriptions. The watch and chain come in a new presentation box.
