Height = 15 cm (5.9")

Width = 3.6 cm (1.4")

Depth = 9 cm (3.5")

Description

This is a fabulous example of a vintage mens watch made by the premium Swiss make Omega. This is the heavy solid 9ct gold Seamaster with the rare original unrestored explorer dial from 1965 with the twenty four jewel calibre 552 movement one of Omegas most reliable automatics. The original and untouched dial is in near mint condition with just the slightest surface patina you expect on a dial of this age, it has never been restored, it is finished with solid gold faceted baguette hour markers with solid gold numerals at 3 6 9 and 12. A very rare Explorer dial which really does make this watch stand out. The Omega symbol is on the crown and it is fully marked Omega on the dial, movement and case as you would expect. The heavy 9ct gold case has been ultrasonically cleaned and lightly hand polished so it is absolutely pristine with sharp edges. The case was made for Omega by the British company Dennisons who made most of the solid 9ct gold cases used by Omega. Dennison cases tend to be around 25% heavier than the standard Omega watch cases. The watch case measures 34.5mm in diameter not including the crown and comes with its original box and papers. Omega are one...
