Description

Circa 1900-1930 a nickel plated candle lamp in good working order. Nickel was applied over brass to give a shiny, more 'modern' finish in the early 20th C. The lamp measures 29.5cm in height, the diameter of the shade is 17.5 and the original weighted base is 11.5 in diameter. The shade has a tiny 'ding' at the top as seen in Photo one. The spring mechanism works well and it is in good condition. The lamp has been lightly cleaned to maintain the original nickel plating. Postage and packing is included for the UK mainland only and for outside areas or delivery abroad please contact us for a quote. Thank you.
