Description

Gents 1950s MuDu automatic wrist watch. The watch has a signed 25-jewel automatic movement which is working nicely. The watch measures 32mm diameter excluding the winding crown and the lugs. The case is gold plated while the case back is stainless steel. Signed winding crown (some marking to the crown). Signed case back. Two or three scratches where a tool has slipped in the past. The back of the watch states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition. The dial is in its original finish with original hands, centre seconds hand and date display (not quickset). A new leather strap has been fitted. The watch comes in a new presentation box.
