Description

Antique Omega gun metal pocket watch and chain. The watch has a stem-winding movement, signed with the early Omega logo, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gun metal and it is in good condition, just a couple of small marks to the back. The inside of the case back has the early Omega logo. The glass lens is in lovely condition (some reflection showing in the photos). The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a single chain, 24cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
