Description

A stunning, fine and impressive antique 1920's 2.07 carat diamond and 14 carat yellow gold ring; part of our diverse men's jewellery collection. This stunning, fine and impressive antique diamond ring has been crafted in 14ct yellow gold. The substantial ring has a ribbed design with a textured finish, incorporating a lemniscate-shaped collet setting to the anterior surface. The feature settings display a 1.06ct and 1.01ct Old European round cut diamond, in a vertical linear formation. The broad, graduating antique yellow gold ring shoulders melding seamlessly with the plain ring shank. The ring is hallmarked to the interior of the shank with the 14ct gold fineness mark (14K). This men's antique diamond ring in yellow gold is supplied with a two IDGL diamond grading report certificates. A unisex double diamond gold ring makes a bold statement, perfect for engagements, milestone birthdays (30th, 40th, 50th), and anniversaries (10th, 50th). Its timeless design also suits weddings or as a meaningful promise ring. Images do not always reflect the true colour and brilliance of gemstones and diamonds. The video however provides a truer representation of the actual colour...
