Description

This rare pair of Italian miniature micro mosaic photo frames are made from brass. They have original hinged easel stands, removable back panels with oval glasses. These beautiful pieces are decorated with pastel coloured cut glass fragments which are assembled in a classical design around the outer borders which are divided into sections with delicate brass twisted wire. The bases are finished with small ball feet for style and stability. These very pretty frames retain some of the original gilt finish. They are both in excellent condition and come with two period photographs of children. Italian circa 1920 Height 6.5cm x width 5.5cm x depth 7cm when open.
