Description

UK POSTAGE ONLY Gents 9ct gold Tudor wrist watch, 1957. The watch has a Swiss 15 jewel hand-winding movement, ETA 1260 for Tudor, which is working nicely. The movement is signed with the Tudor name. The watch measures 32mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for Edinburgh 1957 together with the Rolex logo with crown, and the RWC mark for Rolex Watch Company. The case front and sides of the case are in good condition. The case back, which has a long service inscription from BR Western Region, has some gentle unevenness. The finish has worn off the main face of the winding crown, probably a replacement. The lens is in lovely condition. The signed dial is in its original finish with original hands (the infill is no longer in the hands). A new leather strap has been fitted. The watch comes in a new presentation box.
