Description

Really nice quality French four tier chandelier. The chandelier has a sturdy steel pole down the centre with glass tubes for decoration. The top has 8 arms decorated with drips and spikes. The centre is decorated with tapered beads which are suspended from the drip trays. This piece has square arms which are finished with a hook shape at the end. This piece looks quite early and looking at the candle holders may have been candle powered originally. This chandelier really is superb quality with a good variation of interesting drips. This piece has small screw bulbs. st 3262
