Description

A good example of a small glass match holder with a solid silver rim. The holder itself is made from ribbed glass with a hole in the top to store the matches. The silver rim is hallmarked for London, 1899 and the maker William Comyns. It is in good condition for its age. There are some small dinks and surface marks on the silver rim and some small scuffs to the glass but no major damages and it displays well. It has been lightly cleaned and polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask.
